**Regional Summary:**

- COVID-19 cases
  - Guam has 7,399 total cases and 124 deaths with 82 new cases and 3 new deaths reported this week
  - CNMI has 125 total cases and 2 deaths with 3 new cases reported this week (imported); no community transmission
  - RMI has reported 4 total cases identified in mandatory quarantine on Kwajalein military base (all now recovered)
  - American Samoa has identified 5 cases (1 active case reported this week) among docked crew and FSM has identified 1 case (this week) among docked crew; these are considered border cases
- Testing capacity
  - All USAPIs have at least Abbott ID NOW, Abbott Binax NOW, and GeneXpert capacity
  - There are currently adequate stocks of tests in the region
- Containment strategies
  - Guam and CNMI are allowing travelers to enter with quarantine and testing requirements
  - Palau is allowing “essential air service” flights from Taiwan and military flights with testing and quarantine requirements
  - American Samoa is planning its first repatriation from Honolulu on 1/29
  - RMI is planning a second repatriation from Honolulu on 1/15
  - FSM repatriation is on hold indefinitely
- Community mitigation strategies
  - Guam continues to be in “PCOR-1” (strictest level)
  - CNMI, American Samoa, FSM, Palau, and RMI have relaxed mitigation measures
- Vaccine Updates
  - CDC is actively shipping Pfizer (AS, CNMI, Guam) and Moderna (all USAPIs) into the region with first and second doses
  - All USAPIs have vaccines (except for Chuuk, Kosrae, and Yap) and are actively vaccinating
  - CDC Foundation is working to procure freezers, coolers, temperature loggers, etc. to assist the USAPIs with vaccine distribution
  - FSM and RMI are also donor-funded countries for COVAX; Palau is self-funded for COVAX
  - See USAPI Vaccine Summary (below)
- PPE
  - All USAPI have a stockpile of PPE for COVID-19, though quantities vary

**CDC/PIHOA one-on-one USAPI weekly check-ins**  
**Week: 1/4/2021-1/8/2021**

**Top Priorities in the USAPI:**

- American Samoa
  - >1,000 residents are on a list to be repatriated in monthly cohorts beginning in January
    - Support is needed for Honolulu quarantine efforts (management of quarantined individuals, testing, PPE, etc.)
  - Questions raised about how to vaccinate residents stranded in the US before repatriation (redirection of vaccine allocations?)
- CNMI
  - Plans are underway for vaccinating Tinian and Rota, though more Moderna vaccine will be needed
  - US government employees are being vaccinated by CHCC, so reallocation of vaccines is needed
- Guam
  - Questions about how to vaccinate all individuals on Guam to include FSM citizens and government employees
- FSM
  - Challenges redirecting shipments of vaccine from Pohnpei to the other states (it would be ideal if shipments could go directly to each state)
  - Quarantine and isolation facilities have not been completed in most of the states
  - Questions raised about how to vaccinate residents stranded in the US before repatriation (redirection of vaccine allocations?)
  - Requests for further training on patient management and vaccination
- Palau
  - Working to establish travel bubbles to move toward slowly reopening borders
- RMI
  - Repatriation flights will continue monthly starting in January
    - Support is needed for Honolulu quarantine efforts (management of quarantined individuals, testing, PPE, etc.)
  - Questions raised about how to vaccinate residents stranded in the US before repatriation (redirection of vaccine allocations?)
