**CDC/PIHOA one-on-one USAPI weekly check-ins**

**Week: 6/15-6/19/2020**

<p><b>RMI-Majuro</b></p>	<p>0 cases; 0 PUIs</p>	<p>Abbott ID NOW (~1,600 available) and GeneXpert (1,670 available) testing on-island; 21 Abbott total tests performed on-island (all negative) on healthcare workers; Lab expansion with PCR complete and working to get PCR (Roche) up and running</p>	<p>Borders are closed (as of 3/8) to all people until at least 7/5; ships must be at sea for 14 days before coming into port; Travel Advisory #14 in effect; working to develop protocols to repatriate from Guam and Honolulu</p>	<p>Multiple media strategies including community meetings; normal activities have resumed; social distancing being encouraged but not enforced</p>	<p>3 ventilators + 10 new (some to be sent to Ebeye); 8 vents from FEMA; more vents being procured; 108 hospital beds (3 ICU), 8 isolation rooms (1 with negative air flow); new isolation building under construction (8 isolation rooms with negative air flow)- completed but waiting on some equipment installation; new quarantine facility (24 beds) built + old facility (80 beds)</p>	<p>N-95s: 18,100 Surgical masks: 23,000 Gloves: 59,595 Gowns: 17,669 Face shields: 10,160 Shoe covers: 0</p>	<p>Request for TA- need more support for planning and reviews of existing plans including outer island plan; staffing needs</p>
<p><b>RMI-Ebeye</b></p>	<p>0 cases; 0 PUIs</p>	<p>Abbott ID NOW (784 available) and GeneXpert (1,3262 available) testing on-island; 1 total Abbott test performed on-island (negative)</p>	<p>Borders are closed (as of 3/8) to all people until at least 7/5; ships must be at sea for 14 days before coming into port; Travel Advisory #14 in effect; working to develop protocols to repatriate from Guam and Honolulu; some essential personnel are being repatriated to Kwajalein base with conservative quarantine and testing measures</p>	<p>Screening outside of hospital; limited social distancing occurring but implementing some safety measures</p>	<p>2 permanent ventilators on-island but both need repair to function; 4 FEMA vents; isolation facility to be built but renovated TB trailer is being prepared (6 beds) for isolation; working to convert Wellness Center and Gugeegue Clinic into quarantine sites; Kwajalein base has agreed to quarantine passengers (70+ beds); new oxygen generator ordered and currently using old generator</p>	<p>N-95s: 7,765 Surgical masks: 8,405 Gloves: 29,950 Gowns: 5,309 Face shields: 4,759 Shoe covers: 0</p>	<p>Low PPE stocks; staffing needs</p>

**CDC/PIHOA one-on-one USAPI weekly check-ins**  
**Week: 6/15-6/19/2020**

**Regional Summary:**

- Testing capacity continues to improve
  - All USAPI have at least Abbott ID NOW and GeneXpert running
  - PCR is available in Guam and Palau; installation underway in CNMI, American Samoa, and Majuro
  - Adequate test stocks for now, but no confirmed long-term pipeline for tests, although more shipments expected through July
  - There is a need for clear guidelines on use of antibody tests in USAPI that are COVID-19-free
- Many USAPI are not prepared for case management and contact investigation
  - TA is ongoing from multiple partners to develop systems
  - TA is ongoing from multiple partners to conduct tabletop exercises to test systems
- Clinical management training now being offered but there are still gaps
  - Clinical training (CME) over Zoom (patient management, ventilation, etc.) began this week
  - Request for 24/7 hotline for clinical questions
  - Request for simple guidelines on patient management
- Adequate ventilators are now in the USAPI, but there are still challenges getting these to be functional
  - Working to procure additional components and train on using FEMA vents with oxygen cylinders
- Many USAPI are struggling with repatriation of residents
  - Request for TA on quarantine protocols for travelers
  - Need to test these protocols and make certain that adequate facilities and other resources are in place prior to repatriation, and that quarantine is conducted properly
- PPE stocks have been established but challenges remain
  - No long-term pipeline established and many USAPI still have inadequate stocks
  - Need for inventory systems to calculate burn rates and concerns about high burn rates in some USAPI
  - Request for guidance or protocols for PPE preservation and reuse and PPE use training
- Many USAPI do not have long-term COVID-19 Preparedness and Response plans
  - Tough decisions need to be made regarding opening of borders and levels of social distancing
  - Challenges balancing COVID-19 response and delivery of other health programs
