CDC/PIHOA one-on-one USAPI weekly check-ins

Week: 7/27-7/31/2020

Regional Summary:

- COVID-19 cases
 - Guam has 356 total cases with 19 new cases reported this week
 - CNMI has 42 total cases with 4 new cases reported this week
 - American Samoa, FSM, Palau, and RMI remain COVID-19-free
- Testing capacity
 - All USAPI have at least Abbott ID NOW and GeneXpert running
 - PCR is available in Guam, Palau, and CNMI; installation is underway in American Samoa and Majuro
 - There are currently adequate stocks of tests, but these will need to continue to be replenished, especially in Guam and CNMI
 - USAPI without cases are working to expand testing among patients
- Containment strategies
 - Guam and CNMI are allowing travelers to enter with quarantine and testing requirements
 - Palau and American Samoa are currently repatriating residents with quarantine and testing requirements
 - FSM and RMI have not yet opened borders, but are planning for repatriation through simulation exercises
 - There is pressure in some USAPI to resume tourism
- Community mitigation strategies
 - Guam and CNMI have relaxed social distancing measures and most businesses are now open
 - American Samoa, FSM, Palau, and RMI are focusing on community education, and there are limited social distancing measures in place due to closed borders and COVID-19-free status
- Medical Preparedness
 - Clinical training over Zoom (patient management, ventilation, etc.) is on week seven and at least one more session is planned
 - Adequate numbers of ventilators are in all USAPI
 - Oxygen delivery and intubation supplies are stocked in all USAPI
 - USAPI are beginning to think about mass vaccination plans
- PPE
 - Need for inventory systems to calculate burn rates and monitor consumption and track distribution
