

**CDC/PIHOA one-on-one USAPI weekly check-ins**  
**Week: 7/3/2021-7/9/2021**

**Regional Summary:**

- COVID-19 cases
  - Guam has reported 8,431 total cases and 141 deaths with 58 new cases and 1 new death reported this week
  - CNMI has reported 185 total cases and 2 deaths with 2 new cases and 0 new deaths reported this week
  - American Samoa, FSM, Palau, and RMI have had no community transmission
- COVID-19 Vaccine distribution summary (See USAPI Vaccine Summary with 25 updated tables and figures listed below)
  - Based on jurisdictional reports: a total of 196,295 people in the region are fully vaccinated (62% of all eligible individuals)
    - An additional 15,166 people in the region are partially vaccinated (5% of eligible individuals in the region)
  - Vaccination coverage rates in the summary table have dropped (**region now to 62% fully vaccinated**). This is due to expanding the eligible population to those aged 12 and over. Palau has ordered Pfizer to start adolescent vaccination. Guam, CNMI, and American Samoa currently offering adolescent immunization with Pfizer. Still anticipated expanded EUA for Moderna by end of August.
  - Current percentages of eligible population **aged 12 and over** fully vaccinated (Tiberius):
    - **American Samoa: 59%**
    - **FSM: Chuuk: 30%, Kosrae: 45%, Pohnpei: 37%, Yap: 43%**
    - **Guam: 63%**
    - **RMI: 46%**
    - **CNMI: 66%**
    - **Palau: 89%**
  - Outer island vaccinations are in progress in Majuro, Ebeye, Chuuk, Palau, and Yap. Pohnpei has not yet started. Will collect Outer Island coverage rates (vaccinated and population) directly from jurisdictional outer island outreach activities due to difficulty in determining denominators and true residence in Tiberius. Yap and RMI are reporting good coverage in Main islands (73-85% vaccinated) but have just started outreach into the outer islands.
- COVID-19 Containment strategies
  - Guam and CNMI are allowing travelers with facility quarantine and testing requirements (some exceptions for vaccinated travelers)
  - Palau has just opened regular Guam flights with quarantine exemptions for vaccinated travelers (but with restricted movement)
  - AS has conducted six repatriation flights; regular repat flights ongoing with HNL/AS quarantine and testing requirements
  - RMI has conducted eight repatriation flights; regular repat flights ongoing with HNL/RMI quarantine and testing requirements
  - FSM has repatriated two cohorts from Guam to Pohnpei and future repat flights are planned
- COVID-19 Laboratory Testing capacity
  - All USAPI have at least Abbott ID NOW, Abbott Binax NOW, and GeneXpert capacity
  - Some stock-outs of Abbott ID NOW being reported
- Community mitigation strategies
  - Guam is in PCOR-3 and continues to relax mitigation measures
  - CNMI, American Samoa, FSM, Palau, and RMI have relaxed most mitigation measures
- PPE: All USAPI have a stockpile of PPE for COVID-19, though quantities vary

## USAPI Vaccine Summary Tables and Charts:

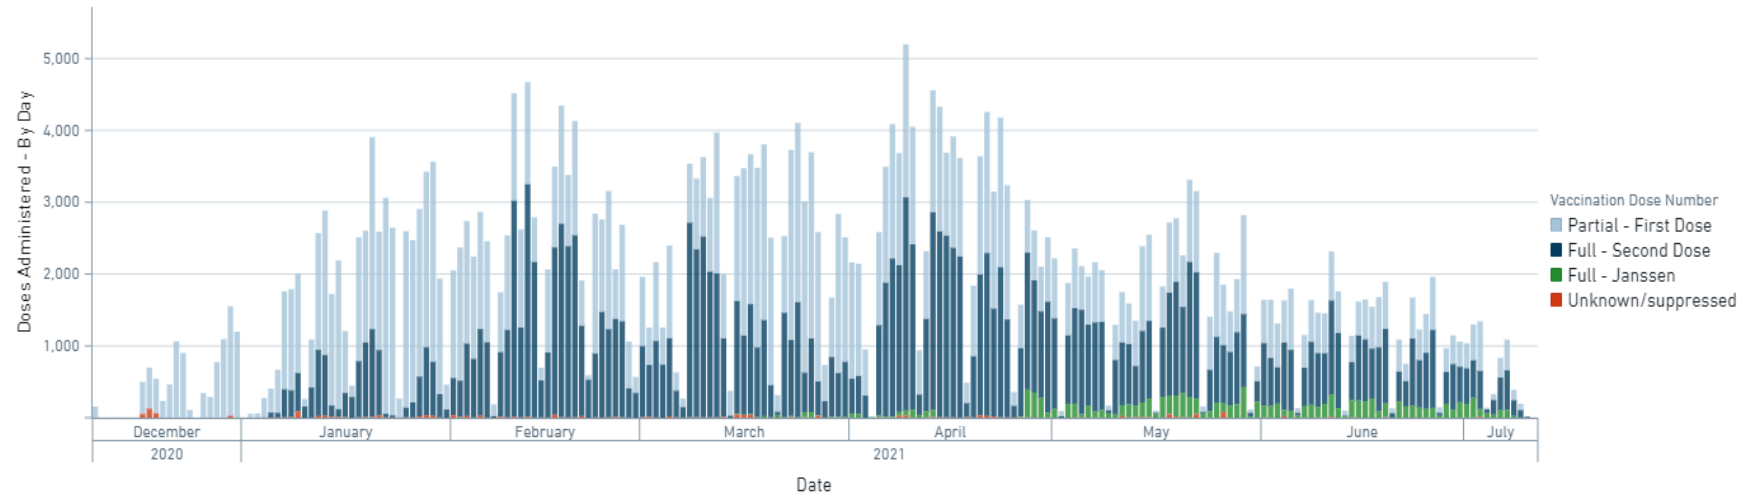

*\*Note that all data except for those detailing Outer Island coverage rates comes directly from Tiberius. Thank you to Katrina Myers and the entire USAPI Tiberius Team for helping assemble “Dr. B’s Famous Slide-set.” Thank you to the jurisdictions who enter this data into WebIZ each day to keep it up to date.*

*\*Outer Island data was provided by each jurisdiction based on their outer island outreach activities. Because of this, there may be discrepancies between the two data sets (Tiberius and the Jurisdiction Outer Island Data). Also, some jurisdictions have yet to report their data in detail. Thank you to Dr. Haley Cash for assembling the Outer Island table and each of the jurisdictions for collecting and reporting this unique, yet important data.*
