CDC/PIHOA one-on-one USAPI weekly check-ins

Week: 7/6-7/10/2020

Regional Summary:

- COVID-19 cases
 - Guam has 310 total cases with 30 new cases this week
 - CNMI has 31 new cases with no new cases reported this week
 - American Samoa, FSM, Palau, and RMI remain COVID-19-free
- Testing capacity
 - All USAPI have at least Abbott ID NOW and GeneXpert running
 - PCR is available in Guam, Palau, and CNMI; installation is underway in American Samoa and Majuro
 - There are currently adequate stocks of tests, but these will need to continue to be replenished, especially in Guam and CNMI
 - Request for guidance on pooled testing
- Containment strategies
 - Guam and CNMI are allowing travelers to enter with quarantine and testing requirements
 - Palau and American Samoa have begun repatriation with quarantine and testing requirements
 - FSM and RMI have not yet opened borders, but are planning for repatriation (there is a need to strengthen systems and build or renovate facilities prior to repatriation)
- Community mitigation strategies
 - Guam and CNMI have relaxed some social distancing measures
 - American Samoa, FSM, Palau, and RMI are focusing on community education, but there are limited social distancing measures in place due to closed borders and COVID-19-free status
- Medical Preparedness
 - Clinical training over Zoom (patient management, ventilation, etc.) is on week four and at least four more sessions are planned
 - Adequate numbers of ventilators are in all USAPI
 - Oxygen delivery and intubation supplies are stocked in all USAPI
- PPE
 - No long-term pipeline established and many USAPI still have inadequate stocks
 - Need for inventory systems to calculate burn rates and monitor consumption
 - Request for more guidance on PPE use
