**CDC/PIHOA one-on-one USAPI weekly check-ins**  
**Week: 8/31-9/4/2020**

**Regional Summary:**

- COVID-19 cases
  - Guam has 1,619 total cases with 332 new cases and four deaths reported this week
  - CNMI has 57 total cases with 3 new cases reported this week (all imported)
  - American Samoa, FSM, Palau, and RMI remain COVID-free
- Testing capacity
  - All USAPI have at least Abbott ID NOW and GeneXpert running
  - PCR is available in Guam, Palau, CNMI, and American Samoa; installation is underway in Majuro
  - There are currently adequate stocks of tests in all USAPI except for Guam who requires more tests and testing capacity
  - USAPI without cases are primarily using tests for symptomatic patients and repatriation
  - Some USAPI with expiring Abbott ID NOW tests are shipping tests to Guam
- Containment strategies
  - Guam and CNMI are allowing travelers to enter with quarantine and testing requirements
  - Palau and American Samoa are currently repatriating residents and essential workers with quarantine and testing requirements
  - FSM and RMI have not yet opened borders, but are planning for repatriation through simulation exercises and working to set up pre-departure quarantine in Guam and Honolulu
- Community mitigation strategies
  - Guam is in “PCOR-1” (strictest level) with additional restrictions
  - CNMI has relaxed social distancing measures and most businesses are now open
  - American Samoa, FSM, Palau, and RMI are focusing on education and living normally
- Medical Preparedness
  - The first round of clinical training over Zoom (16 courses over eight weeks) completed
  - Adequate numbers of ventilators and oxygen delivery supplies are in all USAPI
  - USAPI are working on mass vaccination plans
- PPE
  - All USAPI have a stockpile of PPE for COVID-19, though quantities vary
  - Need for inventory systems to calculate burn rates, monitor consumption, and track distribution
