**CDC/PIHOA one-on-one USAPI weekly check-ins**  
**Week: 9/7-9/11/2020**

**Regional Summary:**

- COVID-19 cases
  - Guam has 1,863 total cases with 244 new cases and nine deaths reported this week; weekly case counts are decreasing, though they still remain high
  - CNMI has 59 total cases with 2 new cases reported this week (all imported)
  - American Samoa, FSM, Palau, and RMI remain COVID-free
- Testing capacity
  - All USAPI have at least Abbott ID NOW and GeneXpert capacity
  - There are currently adequate stocks of tests in the region, though some reallocation of regional supplies has taken place to accommodate higher testing needs in Guam and CNMI
  - COVID-free jurisdictions continue to need tests for repatriation
- Containment strategies
  - Guam and CNMI are allowing travelers to enter with quarantine and testing requirements
  - Palau and American Samoa are currently repatriating residents and essential workers with quarantine and testing requirements
  - FSM and RMI have not yet opened borders, but are planning for repatriation through simulation exercises and working to set up pre-departure quarantine in Guam and Honolulu
- Community mitigation strategies
  - Guam is in “PCOR-1” (strictest level) with additional restrictions
  - CNMI has relaxed social distancing measures and most businesses are now open
  - American Samoa, FSM, Palau, and RMI are focusing on education and living normally
- Vaccine Preparedness
  - All USAPI have completed their initial assessments
  - PIHOA is requesting federal consideration for 100% vaccine allotment for USAPI
  - USAPI vaccine programs and preparedness programs are holding joint planning meetings at their national levels
  - FSM and RMI still considering COVAX process in addition to HHS vaccine distribution
- PPE
  - All USAPI have a stockpile of PPE for COVID-19, though quantities vary
  - Need for inventory systems to calculate burn rates, monitor consumption, and track distribution
