Regional Summary:

- **COVID-19 cases**
  - Guam has reported 18,586 total cases and 248 deaths with 435 new cases (↓ from 679 last week) and 10 new deaths reported this week (↓ from 11 new deaths last week); test positivity 8.0% (↓ from 11.1% last week)
  - CNMI has reported 339 total cases and 3 deaths; 35 new cases (2 imported and 33 community) and 0 new deaths reported this week; community clusters identified through school testing after months without any reported community transmission; additional cases identified from community-based testing and contact tracing; cases continue to be identified in travel quarantine; vaccine uptake increased sharply after identification of cases
  - Palau has reported 8 total cases (6 travelers in restricted movement, 2 contacts) with 0 new cases this week; no community transmission
  - American Samoa has reported 4 total cases (all imported) with 0 new cases reported this week
  - FSM and RMI have had no community transmission

- **COVID-19 Vaccine distribution summary** (See USAPI Vaccine Summary with 25 updated tables and figures listed below)
  - Based on jurisdictional reports: a total of 260,459 people in the region are fully vaccinated (80% of all eligible individuals / --%)
  - An additional 15,753 people in the region are partially vaccinated (5% of eligible individuals in the region)
  - Note: eligible individuals are 12+ for AS, CNMI, Guam, Palau, Kosrae, Yap and RMI but still 18+ for Chuuk and Pohnpei
  - Based on data submitted into Tiberius via WebIZ: 87% of all people aged 12 years and older have had at least one dose of a COVID-19 vaccine; 79% are fully vaccinated. This percentage includes islands who have yet to start vaccinating their adolescents due to no Pfizer availability: Pohnpei, Chuuk, and Yap of the FSM. Note: RMI began Pfizer rollout in Majuro this week and Yap to begin Pfizer rollout next week.
  - Current percentages of eligible population aged 12 and over fully vaccinated (with change from last week’s data in parenthesis):
    - American Samoa: 84% (+1%)
    - FSM: Chuuk: 49% (+1%), Kosrae: 69% (+1%), Pohnpei: 57% (+2%), Yap: 68% (--%)
    - Guam: 90% (+1%)
    - RMI: 58% (+2%)  
    - CNMI: 84% (--%)
    - Palau: >99% (--%)
  - Outer island vaccinations: Outer Island coverage rates from jurisdictional outer island outreach activities due to difficulty in determining denominators and true residence in Tiberius.
    - RMI Outer Islands: At least one dose 51% (--%); Fully 39% (--%) (denominators adjusted based on OI reports and expanded to 12+)
    - Yap Outer Islands: At least one dose 98% (--%); Fully 95% (--%) (denominators adjusted to locally collected denominators for 18+)
    - Chuuk Outer Islands (out of the lagoon): Fully 31% (--%) (OI numbers are incomplete)
    - Pohnpei Outer Islands: Fully 63% (--%) (denominator adjusted based on OI reports for 18+)

- **COVID-19 Containment strategies**
  - Guam is allowing vaccinated travelers or unvaccinated travelers with negative test 72 hours prior to arrival to enter without testing or quarantine.
  - CNMI is allowing travelers with facility quarantine requirement (5-day test out option).
  - Palau is running regular Guam flights with quarantine exemptions for vaccinated travelers (but with restricted movement) and testing on days 1&5.
  - RMI has regular repatriation flights ongoing with HNL/in-country quarantine and testing requirements.
  - AS is running HNL flights using “Talofa Pass” system with pre-travel testing and AS quarantine (no longer HNL quarantine).
  - FSM continues smaller repatriation flights with Guam/FSM quarantine and testing requirements.

- **COVID-19 Laboratory Testing capacity**
  - Supplies of Abbott ID NOW, Abbott Binax, and GeneXpert are low in some USAPI as travel testing demands increase; difficulties with procurement.

USAPI Vaccine Summary Tables and Charts:

*Note that all data except for those detailing Outer Island coverage rates comes directly from Tiberius. Thank you to Katrina Myers and the entire USAPI Tiberius Team for helping assemble “Dr. B’s Famous Slide-set.” Thank you to the jurisdictions who enter this data into WebIZ each day to keep it up to date. *Outer Island data was provided by each jurisdiction based on their outer island outreach activities. Because of this, there may be discrepancies between the two data sets (Tiberius and the Jurisdiction Outer Island Data). Also, some jurisdictions have yet to report their data in detail. Thank you to Dr. Haley Cash for assembling the Outer Island table and each of the jurisdictions for collecting and reporting this unique, yet important data.
