COVID-19 Containment strategies

- Guam no longer requires quarantine for travelers and DPHSS has ceased processing travelers at ports of entry.
- CNMI is allowing vaccinated travelers to enter without quarantine, unvaccinated travelers must home quarantine for 5 days.
- Palau is running regular Guam and Taiwan flights with restriction of movement for vaccinated travelers with negative PCR test within 3 days of departure to Palau or negative antigen test within 1 day of departure to Palau and testing on day 4.
- AS is running limited flights under Talofa Pass system with in-country quarantine and testing requirements and has not yet opened borders.
- RMI has regular repatriation flights ongoing with HNL (3 days) and in-country quarantine (14 days) and testing requirements.
- FSM has resumed repatriation flights and has reduced quarantine to 5 days in Guam then at least 5 days in FSM with testing requirements.

USAPI Vaccine Summary Tables and Charts:

*Note that all data except for those detailing Outer Island coverage rates comes directly from Tiberius. Thank you to Katrina Myers and the entire USAPI Tiberius Team for helping assemble “Dr. B’s Famous Slide-set.” Thank you to the jurisdictions who enter this data into WebIZ each day to keep it up to date.
*Outer Island data was provided by each jurisdiction based on their outer island outreach activities. Because of this, there may be discrepancies between the two data sets (Tiberius and the Jurisdiction Outer Island Data). Also, some jurisdictions have yet to report their data in detail. Thank you to Dr. Haley Cash for assembling the Outer Island table and each of the jurisdictions for collecting and reporting this unique, yet important data.
